Dear Sir,

Good afternoon.

It is my understanding you visited Town Hall this morning and wanted clarification why the Angier Board of Commissioners declined to spend unbudgeted funds to increase the water pressure to Bellewood at this time.

Based on our investigation, the domestic water service pressures within the Bellewood Subdivision meet all applicable State Standards. The pressures within Bellewood are not unique to the subdivision as we have other locations within the Town that have similar available water pressures. The Town currently has a new elevated water storage tank on our Capital Improvement Plan. The current plan is a 500,000 gallon tank. This new tank is intended to replace the 100,000 gallon elevated storage tank located on Dora Street. In addition, the overflow elevation for the new tank is intended to match the overflow elevation for our 250,000 gallon elevated tank on Kennebec Church Road. When this new tank is constructed, the Town will no longer have a "high" pressure zone and a "low" pressure zone as the entire system will be on the "high" pressure elevation. When this project is completed, it will have positive impacts not only on Bellewood, but on most residents with property in the low pressure zone. The timing of this project is primarily dependent on funding and likely in the 3 to 7 year window, although that is not a firm schedule.

I hope this answers your question, and if you have any additional questions, please do not hesitate to contact me.

Gerry

ATOLER. A.C.

RE:

Town of Angier - Bellewood Subdivision Water Distribution System

Cost Opinion for Connection to Wake County Subsystem

Jimmy,

Please see the attached preliminary cost opinion for supplying the Bellewood subdivision from the high-level portion of the Town's water distribution system (a.k.a. Wake County Subsystem), in lieu of the existing connection to the low-level portion of the distribution system (a.k.a. Base Subsystem). The estimate assumes the installation of approximately 425 linear feet of 12" DR18 C900 PVC pipe that would extend from the existing 8" stub out at the Bellewood subdivision northward along Hwy. 55 to just beyond the 20" isolation valve that separates the high-level from the low-level subsystem. The proposed 12" waterline would terminate with a connection to the existing 20" water main along Hwy. 55 via a 20" x 12" tapping sleeve and valve. No other valves or hydrants would be located on the proposed main.

This is a very crowded road shoulder with limited public right-of-way, based on our previous experience with water main installation in this area as part of the Wake County Elevated Tank project. Existing utilities in the road shoulder along the corridor include the 20" water main, a storm drain parallel to the highway, and various cabled utilities. Construction easement or possibly some permanent easement may be required for the waterline installation. The extent of any needed property will not be apparent until utilities are located and a survey completed as part of the design process. There is only (1) property adjacent to the construction corridor to deal with if it becomes necessary.

At this preliminary stage and given the limited scope of construction, the cost opinion for this project is an educated guess. Regardless, we believe the cost to hire a Contractor to provide materials and install the main to Town standards would be approximately \$58,500. As you are aware construction prices are fairly volatile at present. Maintaining a minimum 15% contingency on construction at this stage would be advisable. We recommend budgeting an additional \$5,000 for surveying, engineering, and permitting. The total project cost including contingency is estimated at \$72,250 not including any property or construction easement acquisition.

We do not believe the benefits of extending the proposed connector main to the south end of the subdivision to where the Bellewood water distribution system currently connects to the existing 20" main along Hwy. 55 justify the cost. This would require an additional 1,100 linear feet of water main extension along Hwy. 55. A 20 to 25 psi increase in operating pressure can be realized simply by making the connection on the north end, the connection on the south end notwithstanding. Fire flow capability would increase as well with the north end connection to the high-level system, due to the close proximity of the Bellewood subdivision to the Wake County Elevated Tank. However, the section of existing 8" main extending cross country from the Highway 55 to the subdivision on the south end would need to be valved off and abandoned.

A line item cost opinion and sketch are attached. I am available to discuss this issue in greater detail at your convenience.

End of Memorandum

DAVENPORT & COMPANY

Town of Angier, North Carolina

Updated Capital Funding Analysis: Police Station/Town Hall Project

Angier Village of Opportunity

Background

Davenport & Company LLC ("Davenport"), in our capacity as Financial Advisor to the Town of Angier, North Carolina (the "Town"), assists the Town with planning for future capital projects; among other services.

 The Town is preparing to undertake a borrowing to fund the construction of a generational combined Town Hall and Police Station (the "Project").

 In June, Davenport provided a Capital Funding Analysis for the Project that analyzed the potential financial impact of a borrowing via a Rural Development Loan through the United States Department of Agriculture ("USDA").

 Herein, Davenport has updated the June Analysis based on additional information provided by Town Staff.

Capital Funding Analysis Update

Davenport has updated the June Capital Funding Analysis based on the following:

- 1. Project costs have increased to approximately \$12.4 million.
- 2. The Town increased its Unassigned General Fund Balance by more than \$1.2 million in Fiscal Year 2021.
 - ➤ The Fiscal Year 2022 Budget assumes the use of roughly \$400,000 of Unassigned General Fund Balance.
 - However, even with this budgeted usage, the Town remains well above its policy target, thus providing flexibility to responsibly allocate fund balance dollars towards the Project.
- 3. As a result of the favorable reassessment process, the Town is estimating ad valorem revenues will increase roughly 15%, or approximately \$300,000 per year. These dollars resulting from increased property values will allow the Town to fund the Project without a need to increase the tax rate. Note: This assumes the Town does not equalize the property tax rate.

Revenues Available

- The Town has approximately \$579,000 of annual revenues available beginning in FY 2023 to pay debt service on the Project.
- These available revenues consist of:

- Approximately \$89,000 budgeted for existing debt service;
- Approximately \$190,000 budgeted for new debt service; and
- Approximately \$300,000 from revaluation (assumes 15% increase at the current tax rate versus FY 2022 Ad Valorem Tax Revenues of \$2,012,846).

Key Assumptions

- This updated analysis assumes the following:
 - ➤ The Town pursues 2 Years of Interim Financing beginning in FY 2023 at 2.50% as required by the USDA program.
 - 2 full years of interest in FY 2023 and FY 2024.
 - The Town receives a Permanent Financing via a USDA RD Loan beginning in FY 2025 at 2.25%.
 - 2 Years of interest-only payments in FY 2025 and FY 2026.
 - 28 Years of level principal and interest payments beginning in FY 2027.
 - ➤ The Town contributes \$1 million of Unassigned Fund Balance which reduces the size of the borrowing to \$11.4 million.

Penny Impact Analysis

Projected revenues are sufficient to cover projected debt service payments with some annual contingency (roughly \$26,000).

Impact on Key Debt Ratios

 Standard & Poor's Criteria for General Obligation Credits Defines categories of Debt Service as a % of Governmental Expenditures as⁽¹⁾:

Very Strong: <8%
Strong: 8% - 15%
Adequate: 15% - 25%
Weak: 25% - 35%
Very Weak: >35%

 Moody's Criteria for General Obligation Credits defines categories of Debt to Assessed Values as⁽²⁾:

_	Very Strong (Aaa):	<0.75%
_	Strong (Aa):	0.75% - 1.75%
-	Moderate (A):	1.75% - 4.00%
_	Weak - Very Poor (Baa and below):	>4.00%

1) Adjusted Expenditures are assumed to grow 1% annually from FY 2022 Adopted Budget levels beginning in FY 2023. FY 2022 Adjusted Expenditures calculated using budgeted General Fund Expenditures net of FY 2022 estimated debt service, transfers, and appropriated fund balance.

2) Assessed Values are assumed to grow 1% annually from FY 2021 levels beginning in FY 2022.

Note: Estimated results shown above are preliminary, subject to change based on planning interest rates as of December 16, 2021. Actual results may vary significantly from these estimates.

Impact on Unassigned Fund Balance

Unassigned Fund Balance as a % of Adj. Expenditures

	2	2017	2018	2019	2020	2021	2022(1)
General Fund Expenditures	\$ 3,	,456,701	\$ 3,926,867	\$ 3,720,425	\$ 4,384,409	\$ 4,163,677	\$ 4,668,536
Net General Fund Transfers		(11,430)	-	104,140	(10,316)	(257,920)	(53,200)
Adjusted General Fund Expenditures	\$3,4	145,271	\$ 3,926,867	\$ 3,824,565	\$ 4,374,093	\$ 3,905,757	\$ 4,615,336
Unassigned General Fund Balance	\$ 2,	,879,320	\$ 3,292,165	\$ 3,377,277	\$ 4,062,583	\$ 5,214,300	\$ 3,811,460
Unassigned as a % of Adj. Expenditures		83.57%	83.84%	88.30%	92.88%	133.50%	82.58%

(1): FY 2022 General Fund Expenditures value based on Total General Fund Expenditures from FY 2022 Adopted Budget less \$402,840 of Fund Balance Appropriated. Also, FY 2022 Unassigned General Fund Balance is net of 2022 Fund Balance Appropriated of \$402,840 and potential contribution to the Project of \$1,000,000. Note: Estimated results shown above are preliminary, subject to change based on planning interest rates as of December 16, 2021. Actual results may vary significantly from these estimates.

DAVENPORT & COMPANY

Municipal Advisor Disclaimer

The U.S. Securities and Exchange Commission (the "SEC") has clarified that a broker, dealer or municipal securities dealer engaging in municipal advisory activities outside the scope of underwriting a particular issuance of municipal securities should be subject to municipal advisor registration. Davenport & Company LLC ("Davenport") has registered as a municipal advisor with the SEC. As a registered municipal advisor Davenport may provide advice to a municipal entity or obligated person. An obligated person is an entity other than a municipal entity, such as a not for profit corporation, that has commenced an application or negotiation with an entity to issue municipal securities on its behalf and for which it will provide support. If and when an issuer engages Davenport to provide financial advisory or consultant services with respect to the issuance of municipal securities, Davenport is obligated to evidence such a financial advisory relationship with a written agreement.

When acting as a registered municipal advisor Davenport is a fiduciary required by federal law to act in the best interest of a municipal entity without regard to its own financial or other interests. Davenport is not a fiduciary when it acts as a registered investment advisor, when advising an obligated person, or when acting as an underwriter, though it is required to deal fairly with such persons,

This material was prepared by public finance, or other non-research personnel of Davenport. This material was not produced by a research analyst, although it may refer to a Davenport research analyst or research report. Unless otherwise indicated, these views (if any) are the author's and may differ from those of the Davenport fixed income or research department or others in the firm. Davenport may perform or seek to perform financial advisory services for the issuers of the securities and instruments mentioned herein.

This material has been prepared for information purposes only and is not a solicitation of any offer to buy or sell any security/instrument or to participate in any trading strategy. Any such offer would be made only after a prospective participant had completed its own independent investigation of the securities, instruments or transactions and received all information it required to make its own investment decision, including, where applicable, a review of any offering circular or memorandum describing such security or instrument. That information would contain material information not contained herein and to which prospective participants are referred. This material is based on public information as of the specified date, and may be stale thereafter. We have no obligation to tell you when information herein may change. We make no representation or warranty with respect to the completeness of this material. Davenport has no obligation to continue to publish information on the securities/instruments mentioned herein. Recipients are required to comply with any legal or contractual restrictions on their purchase, holding, sale, exercise of rights or performance of obligations under any securities/instruments transaction.

The securities/instruments discussed in this material may not be suitable for all investors or issuers. Recipients should seek independent financial advice prior to making any investment decision based on this material. This material does not provide individually tailored investment advice or offer tax, regulatory, accounting or legal advice. Prior to entering into any proposed transaction, recipients should determine, in consultation with their own investment, legal, tax, regulatory and accounting advisors, the economic risks and merits, as well as the legal, tax, regulatory and accounting characteristics and consequences, of the transaction. You should consider this material as only a single factor in making an investment decision.

The value of and income from investments and the cost of borrowing may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions or companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance and estimates of future performance are based on assumptions that may not be realized. Actual events may differ from those assumed and changes to any assumptions may have a material impact on any projections or estimates. Other events not taken into account may occur and may significantly affect the projections or estimates. Certain assumptions may have been made for modeling purposes or to simplify the presentation and/or calculation of any projections or estimates, and Davenport does not represent that any such assumptions will reflect actual future events. Accordingly, there can be no assurance that estimated returns or projections will be realized or that actual returns or performance results will not materially differ from those estimated herein. This material may not be sold or redistributed without the prior written consent of Davenport.
